IDEA-0667-68

SUMMARY OF S-1010 PPA STATUS

1. Suit fitting/comfort adjustments were made and evaluated for all available pilots at Detachment G during week of 26 August. On the basis of in-flight evaluations, cockpit evaluations and/or pilot interviews all pilots are judged to be safe for flight in their S-1010 PPAs.

2. Additional suit comfort improvements required by some pilots are continually being provided by Detachment G life support personnel. Such comfort adjustments will have no known impact on the detachment's deployment schedule.

3. All U.S. pilots except [redacted] have at least one S-1010 PPA. [redacted] second suit is now in production. [redacted] has one suit, as does [redacted] suit is ready for fitting upon his arrival in [redacted] are scheduled for S-1010's in December.

25X1

4. The undersigned cannot foresee any delay in deployment schedule that would be caused by the status of S-1010 PPA's.
